Availability: July – December 2025

EDUCATION

Northeastern University, Khourey College of Computer Sciences

Boston, MA

Candidate for a Bachelor of Science, 2026 – Computer Science

September 2024 – May 2026

Relevant Coursework: Math Reasoning, Data Science, Digital Design and Computer Architecture, Technology and Human Values

Awards / Honors: Dean's list 2024. GPA: 3.8/4.0

Loyola Marymount University (LMU)

Los Angeles, CA

Candidate for Bachelor of Arts, 2025 – Computer Science August 2021 - May 2024

Relevant Coursework:

Linear Algebra, Algorithms and Analysis, Data Structures, Mobile

App Development, Discrete Mathematics, Advanced Computational Linguistics

Computer Knowledge

Languages: *Strong:* Java, Python, Swift/iOS development | *Familiar:* Racket, C **Tools:** XCode, Git, Autodesk Inventor, FlutterFlow, Eclipse, Visual Studio

Projects

T3 Tic-Tac-Toe Game | Java/Visual Studio

Fall 2022

- Created an application with an AI generated opponent plays against a player in a game called T3 Tic-Tac-Toe, which is a combination of chess and Tic-Tac-Toe (game-trees, utility functions, minimax search)

Scheduler application | Java/Visual Studio

Fall 2022

- Using a constraint satisfaction algorithm, created an application that when given constraints in your schedule would plan out all task inputted, making it easier for the user.

IOS Mobile Application "LearningConn" | Swift/XCode

June-July 2023

- Spearheaded the development of an application for student with learning disabilities that empowers constructive habits, while also creating an equitable learning environment.

EXPERIENCE

RAINS Undergraduate Research Fellow | LMU

Los Angeles, CA

Developer

May 2023 - June 2023

- Researched design principles, HIPPA standards/practices, and learning disabilities evaluation standards, while also enhancing my IOS and swift development skills.
- Constructed a design prototype on the software FlutterFlow, and enforced my IOS development skills by incorporating implementation that would help students succussed.
- Resulted in a prototype-level educational app, built for ISO devices using XCode, that allows for streamlined communication between educators and students with learning disabilities.

Student-Athlete Representative | Student-Athlete Advisory Committee (SAAC)

Los Angeles, CA

Team Representative

August 2022 – May 2024

- Streamlined communication between SAAC and teams by attending SAAC meetings and then holding team discussions about what was addressed.
 - Serve as liaison to the SAAC to represent the Rowing Program perspective to influence and inform discussions on NCAA proposals that impact the student-athlete community.
-

Organizations/Interests

Northeastern & LMU Athletics | Men's Rowing

Boston, MA

NCAA Student-Athlete.

August 2021 – Present

- Dedicated 20-30 hours per week to all aspects of team and person preparation of Division I competition, including serving as team captain August 2021 – May 2024.
- Contributor to the Northeastern A boat finishing seventh collegiately at the annual Head of the Charles Regatta, by sitting in the seven seat of the first varsity crew.
